

ADVENTURE TEAM

**Coach:
LTC(R) Bellows**

**Team Captain:
TBD**

The Adventure Team competes on two levels of competition. During the school year 2019/2020 we competed at the entry level competitions. As we continue to grow the program will start competing at the next level of competitions.

In our first year of competition the cadets earned the first trophy the South Pointe JROTC program received. The entry level events include physical, leadership reaction courses, and scholastic events. The higher level of competitions will include more physically challenging events.

Cadets need to be prepared to practice before and/or after school. The practices will be determined by the team captain and approved by the team coach;
